

SHEET NO. 1072
PLAN NO. 1072
SEWER IN
SYCAMORE STREET
 BETWEEN
CENTRAL STREET AND BELLEVUE STREET
 IN THE
CITY OF SAN BERNARDINO, CALIFORNIA
 1931

LEGEND

For the purpose of this plan, the following definitions shall apply:
 Sewer: A pipe or conduit for the conveyance of sewage.
 Manhole: A structure for the access to a sewer.
 Catch Basin: A structure for the collection of debris and sand from a sewer.
 Invert: The lowest point of a pipe or conduit.
 Grade: The surface of the ground.
 Profile: A vertical section of a sewer line showing its elevation and the elevation of the ground surface.

GRADE DIMENSIONS

The following table shows the elevations of the ground surface and the sewer invert at various points along the sewer line. The elevations are in feet above sea level.

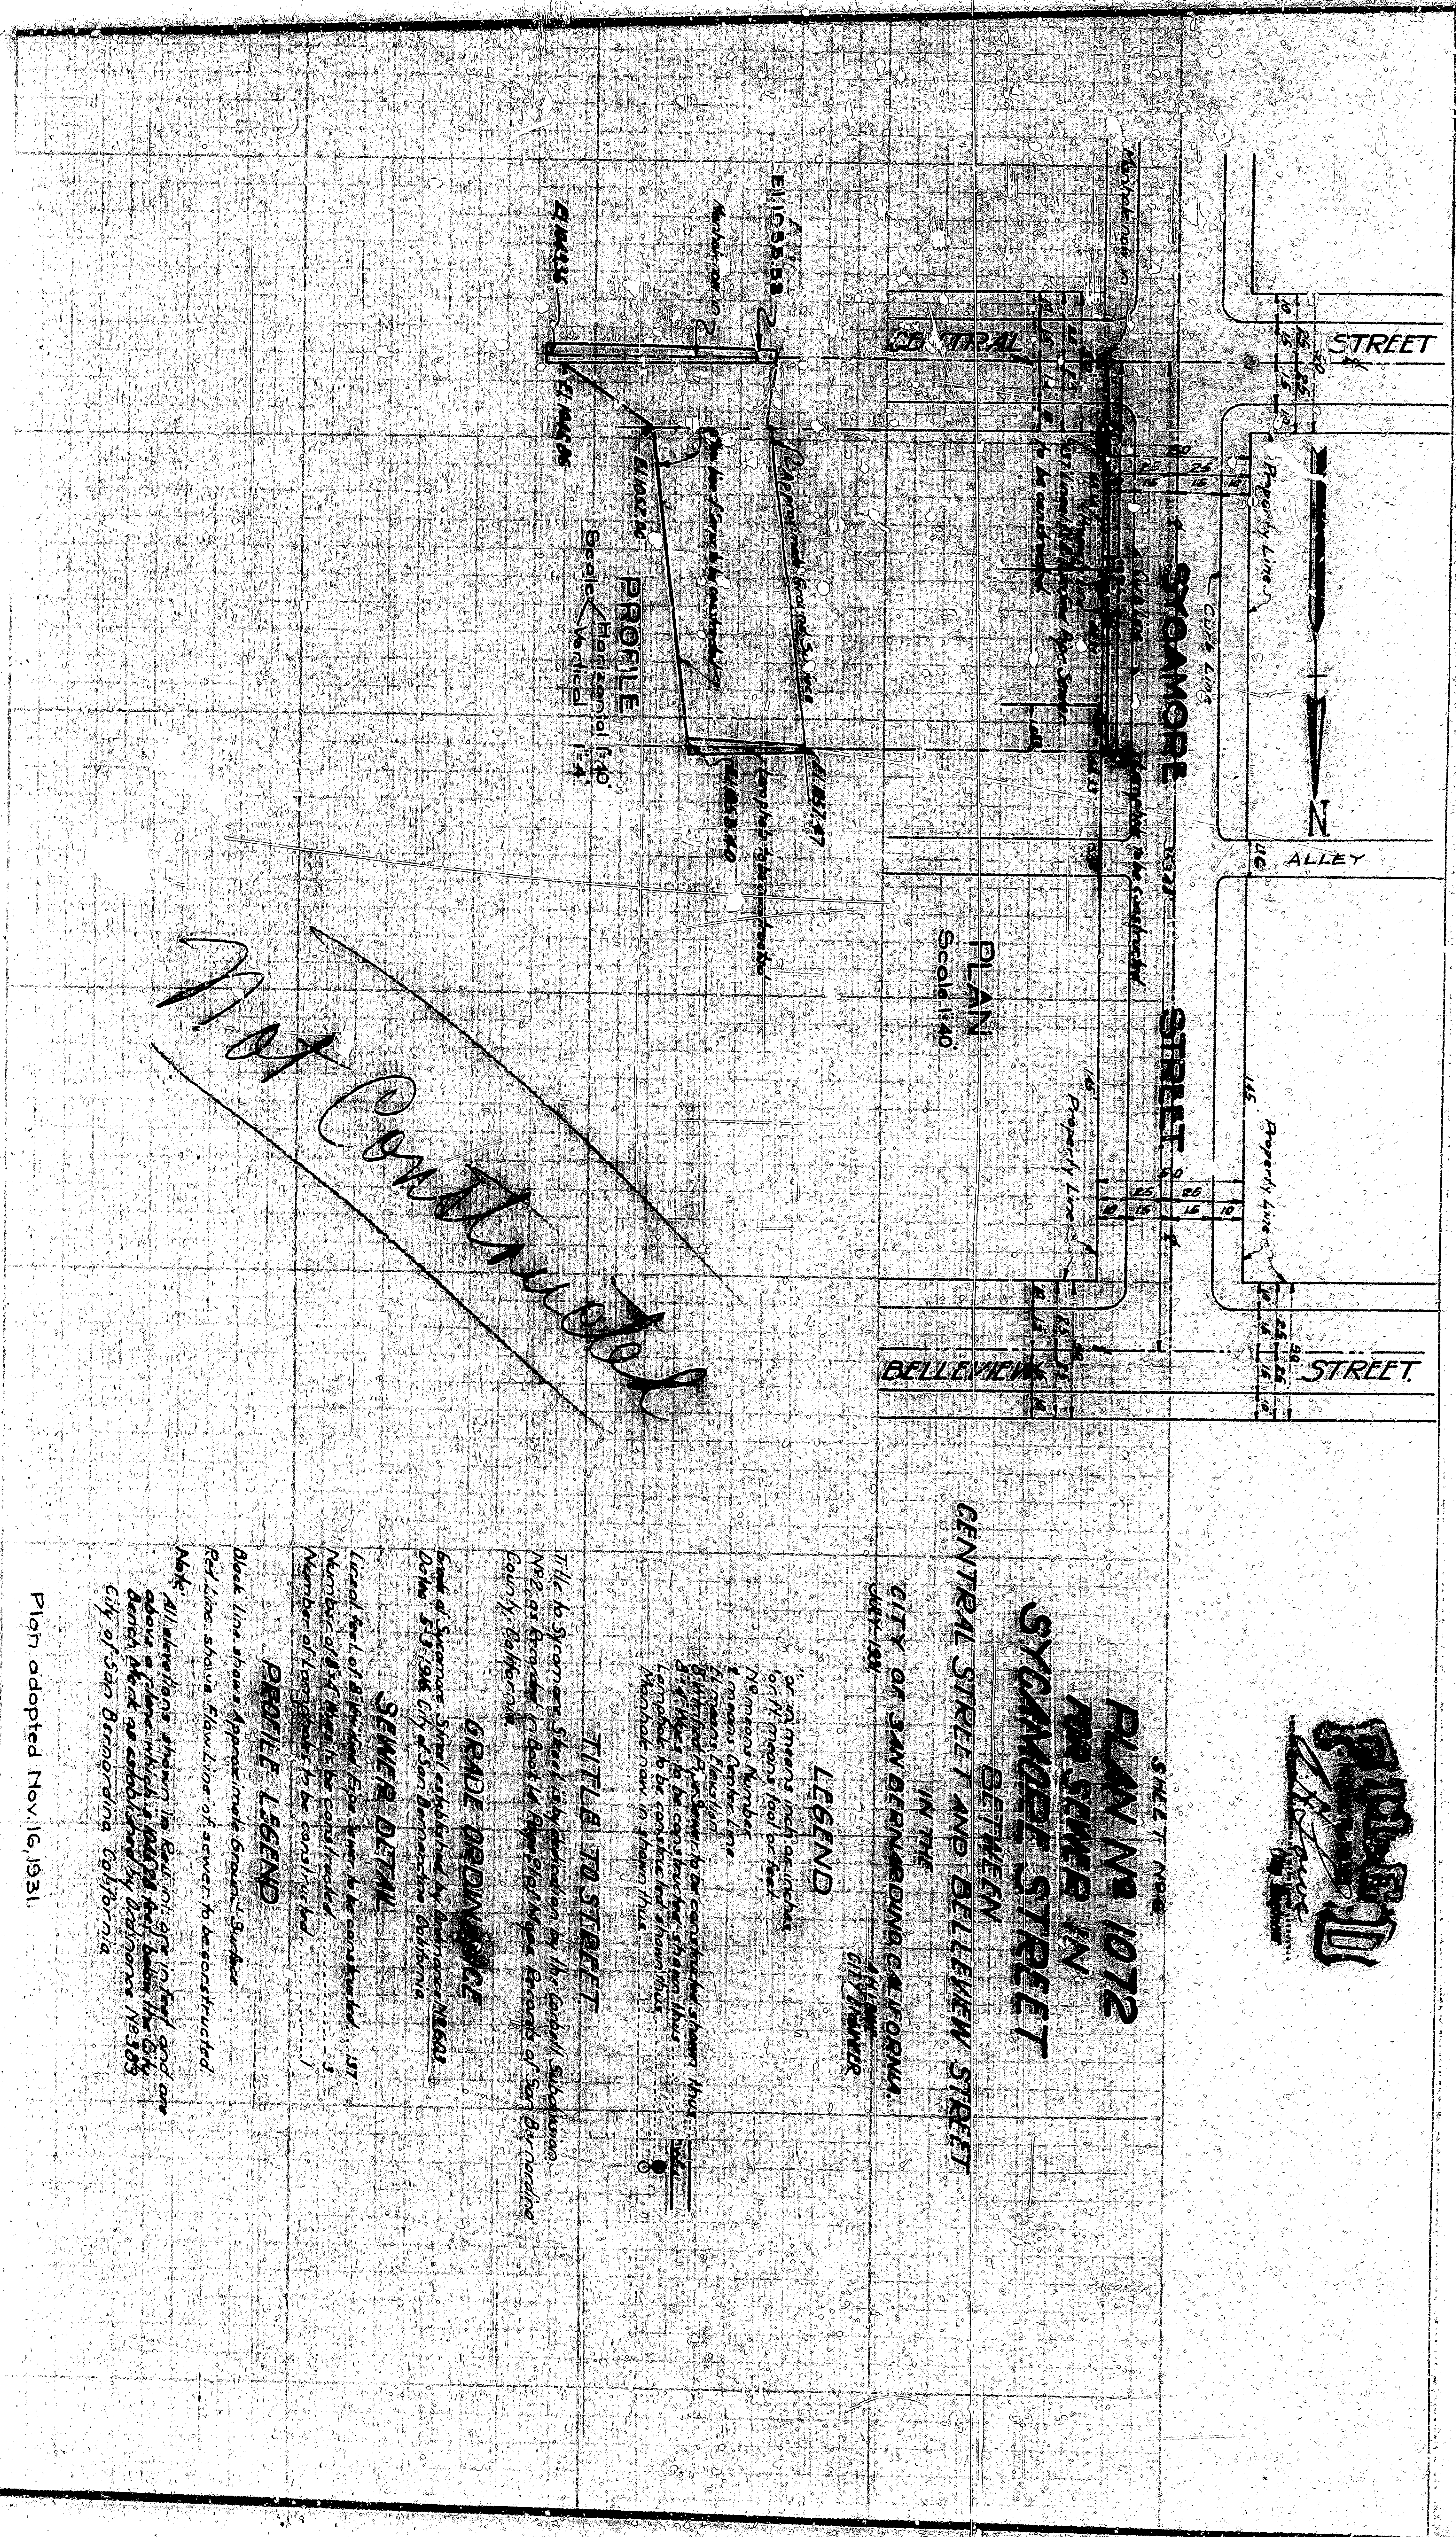

SEWER DETAIL

The sewer lines shown on this plan are to be constructed in accordance with the specifications for sewer construction in the City of San Bernardino, California.

PROFILE LEGEND

The profile shows the ground surface, the sewer invert, and the manhole structures. The ground surface is shown with a dashed line, the sewer invert with a solid line, and the manhole structures with a thick solid line. The profile is shown in a vertical section along the sewer line.

Plan adopted Nov. 16, 1931.

PLAN NO. 1072
SEWER IN
SYCAMORE STREET
 BETWEEN
CENTRAL STREET AND BELLEVUE STREET
 IN THE
CITY OF SAN BERNARDINO, CALIFORNIA

LEGEND

For the purpose of this plan, the following definitions shall apply:
 Sewer: A pipe or conduit for the conveyance of sewage.
 Manhole: A structure for access to a sewer for inspection, cleaning, or repair.
 Catch Basin: A structure for the collection and retention of debris and floating matter.
 Invert: The lowest point of a pipe or conduit.
 Elevation: The height of a point above a datum.

GRADE DRAINAGE

The following information is furnished for the grade drainage of the area shown on this plan:
 The ground surface is shown by the solid line.
 The proposed sewer line is shown by the dashed line.
 The proposed sewer invert is shown by the dotted line.
 The proposed sewer manholes are shown by the circles with crosses.
 The proposed sewer catch basin is shown by the rectangle with a cross.

PROFILE LEGEND

The following information is furnished for the profile of the sewer line:
 The ground surface is shown by the solid line.
 The proposed sewer line is shown by the dashed line.
 The proposed sewer invert is shown by the dotted line.
 The proposed sewer manholes are shown by the circles with crosses.
 The proposed sewer catch basin is shown by the rectangle with a cross.

Plan adopted Nov. 16, 1931.
